

## **Resources for GATE Families**

*The following items reflect various mailings that have been received by our GATE coordinator. They are neither endorsed nor not endorsed by LCUSD. Instead, they represent happenings of timely interest.*

### **Dr. B's Summer Science Explorations 2006**

The former Mirman School Summer Science School, now run by Dr. Richard Boolootian, offers kids ages 9-14 adventures both local and exotic. Among the latter are an eight-day journey to a rainforest in Costa Rica, 11 days in the Galapagos Islands, and 16 days on an African Safari. Parents and families are invited to attend. For further information, call 091-3473 or check online, [www.sciencedestinations.org](http://www.sciencedestinations.org).

### **Destination Science**

One week camps in robot building, rocket building, crime science and water wizardry are being offered at the Roger Barkley Community Center. Call 888-909-2822 or check online, [www.destinationscience.org](http://www.destinationscience.org).

### **Pre-Accelerated College Enrollment (PACE) Program**

This program, operated through the California State University System, offers the opportunity for high school students to take summer classes at the university on a part-time basis. Students in high school who are identified gifted need only a letter of recommendation from their GATE coordinator to participate. Note: the program also offers Search for Exceptional Academic Achievement (SEAA) testing in April for students between the ages of 11 and 15.5. For further information, call 323-2287 or check online, [www.calstatela.edu/eep](http://www.calstatela.edu/eep).
