

La Canada High School

School Wide Learning Goals

September 7, 2006

As a professional learning community dedicated to student achievement across every area of human growth and development, La Canada High School 7-12 is committed to the following School Wide Learning Goals. We embrace these Learning Goals as the guiding framework for our shared vision and as the foundation for all of our educational best practices.

Character and Citizenship

LCCHS students act with integrity, honesty, and compassion.

LCCHS students show respect for cultural, gender, physical, and religious diversity.

LCCHS students interact with their school, community, nation, and world as productive and responsible citizens.

Communication

LCCHS students develop and employ effective and appropriate communication techniques.

LCCHS students express their unique voices in speaking, writing, and listening.

Critical Thinking

LCCHS students analyze, interpret, and evaluate meaningful data to achieve resolution.

LCCHS students think critically by formulating ingenious ideas and by implementing solutions.

Life-Long Learning

LCCHS students use their gifts, talents, and skills to make valuable contributions to others.

LCCHS students are enthusiastic and engaged learners throughout life.

Technology

LCCHS students employ technology to facilitate learning and to solve problems.

LCCHS students use technology to access, gather, evaluate, create, and utilize data in an ethical manner.
