

**Classroom Performance System® (CPS Pulse) Responder Use Agreement**

I, (print name) \_\_\_\_\_, in period \_\_\_\_\_, have responder # \_\_\_\_\_.

I understand that this responder is an electronic device that is absolutely essential to my classwork participation and quiz grades in this class. As such, I agree that I will not damage or deface the device in any way. I also agree to return the responder device to the appropriate location at the end of class and that I will not remove any device from the room, as students in the next classes will be using my device. I also agree not to remove the batteries unless Mr. Traeger has asked me to change them. I will do my best to ensure that the device does not get dropped, stepped on, sat on, or mishandled in any other fashion. If any damage is found at any time or if the responder simply does not work, I will immediately report the damage to Mr. Traeger and a spare responder will be issued to me. Failure to comply with any of the above may result in my liability for all costs for repair and/or replacement of the device (current price for replacement is \$72.38 per responder) and may result in disciplinary action if said action was deemed to be intentional.
